 <p>25,4 35,0 44,6 54,2 63,8</p>	 <p>40,0 50,0 69,7 83,3 103,3 142,7</p>	 <p>40,3 76,3 112,3 148,3 184,3 220,2 256,2 292,2</p>	 <p>3,3</p> <ul style="list-style-type: none"> All shelf walls have a drilling grid of 12 cm as standard. Customised drilling grids are possible. The walls can be stacked in order to obtain even more height. Combinations in depth are possible flush front or flush back. Furthermore, special sizes are possible. All depths, widths and heights can be adjusted accurately to the millimetre. <ul style="list-style-type: none"> Alle Regalseiten haben Standard ein Bohrraster von 12 cm. Individuelle Bohrraster möglich. Die Regalseiten können aufeinander gestapelt werden, um so noch mehr Höhe zu erreichen. Tiefenversprünge sind front- oder rückwandbündig möglich. Darüber hinaus sind auch Sonderanfertigungen möglich. Alle Tiefen, Breiten und Höhen können millimetergenau angepasst werden. <ul style="list-style-type: none"> Tous les montants de rayonnage sont munis de percements standard espacés de 12 cm. Possibilité de percements individuels. Les montants peuvent être superposés afin d'obtenir encore plus de hauteur. Combinaisons en profondeur sont possibles avec alignement de façade ou de fond. De plus, des fabrications spéciales sont aussi possibles. Toutes les profondeurs, largeurs et hauteurs peuvent être adaptées précisément au millimètre. <ul style="list-style-type: none"> Alle kastzijden zijn standaard uitgerust met een doorlopend boorraster van 12 cm. Individuele boorrasters mogelijk. Alle kastzijden kunnen op elkaar gestapeld worden om nog meer hoogte te kunnen bereiken. Combinaties in de diepte zijn front- of achterwandgelijk mogelijk. Daarenboven is speciaal maatwerk mogelijk. Alle diepten, breedten en hoogten kunnen op één millimeter precies aangepast worden.
